MISSION STATEMENT

I am an experienced UX/UI designer with over 10 years in the digital design field, specialising in creating intuitive and visually compelling user interfaces. With a strong foundation in both design and development, I enjoy crafting user centred digital experiences that align with business goals. Skilled in Figma and other industry-leading design tools, I focus on building engaging and accessible products that are both functional and aesthetically pleasing. My passion for continuous learning, user feedback, and collaboration ensures that I consistently deliver high-quality designs that elevate user experience and drive business success.

Programs: Word, Excel, PowerPoint, Adobe CC: Illustrator, Photoshop, HTML/CSS, Javascript. Figma, Content management system (Wordpress).

EMPLOYMENT

Freelance Website Designer/Developer

Jan 2023- Present

Working with a variety of small to medium size companies to complete various different types of technical and design related issues they had. Types of work includes:

- Crafted engaging UX/UI designs for a range of SMEs and local businesses, delivering effective brand messaging and achieving desired outcomes, from increased website traffic to boosted sales.
- Built custom HTML/CSS websites for companies seeking to move beyond restrictive website builders like Wix, enabling them to achieve their unique digital objectives and stand out in crowded markets.
- Enhanced website page rankings for numerous clients through targeted UX/UI improvements, leveraging best practices and analytics to optimise user engagement and search engine visibility.

Juicy Marketing

<https://juicymarketing.co.uk/>

Website Designer

June 2017-end of December 2022

- As the lead website designer I developed and optimised engaging website UI/UX designs using WordPress, ensuring seamless navigation and implementing SEO strategies for maximum visibility.
- Created compelling digital designs, including web banners, brochures, newsletters, that effectively communicated brand messaging and resonated with diverse audiences, from SMEs to corporations.
- Led project management efforts, overseeing cross-functional teams and ensuring timely and successful completion of initiatives, from ideation to launch.

Create Designs/Cheap Web Design

<http://www.createdesigns.co.uk/>

Web Designer and Developer

January 2014-May 2017

- Gained a lot of expertise in designing attractive and effective home page mock-ups, banners, and logos for various websites using industry-standard software like Photoshop, Illustrator, and InDesign.
- Displays proficiency in building websites using WordPress, HTML, and CSS, as well as utilising plugins and themes to enhance the functionality and appearance of websites.
- Possesses exceptional project management skills for multiple websites, ensuring that design and development align with the client's business goals from conception to completion. Able to manage time, budget, and resources effectively to deliver projects on time and within budget.

Community Upon Thames

Website Manager

August 2011-July 2012

- Proficient in designing company advertisements and website components, such as shopping page icons, as well as creating marketing materials for events, including posters, invitations, stickers, and business cards for employees.
- Capable of uploading and managing website content via content management systems like Joomla, as well as implementing regular changes to parts of the company's website, such as events, polls, member ads, and overall design. Also skilled in editing HTML source code for website improvements.
- Responsible for maintaining a consistent brand experience across various platforms, including mobile, print, and web.
